教育相談部を教育支援部に統合

Mission of NISE *

NISE will contribute to realizing the education that meets special needs of individual children with disabilities, as the national center for special needs education, by collaborating with the national and local government and by addressing policy and education issues flexibly and promptly.

Vision of NISE (the direction toward achieving the mission)

1. Research

Advancing research contributing to national policy making and implementation of special needs education, and practical research addressing imminent education issues, as well as supplying research results to schools and the public.

2. Teacher training

Providing systematic and specialized training programs to teachers who will play a leading role in special needs education in prefectures, so as to support efforts made by prefectures to improve their expertise and leadership.

3. Support for counseling and consultation services

Supporting for improving the quality of educational counseling services at the prefectural level.

4. Information services

Gathering and disseminating information on special needs education in Japan and overseas and conducting awareness-raising activities, so as to contribute to promoting special needs education.

* The mission and vision above were presented in the third medium-term objectives for NISE set by the Minister of Education, Culture, Sports, Science and Technology in March 2011.
